Special Issue

Genetic Aspects of Deoxyribonucleotide Metabolism

Prepared on the Occasion of the 16th International Congress of Genetics, Toronto, Canada
(20-27 August 1988)

edited by D.G. MacPhee, R.H. Haynes, B.A. Kunz and D. Anderson

Preface

F.H. Sobels (The Netherlands) 1

Editorial introduction

D.G. MacPhee, R.H. Haynes, B.A. Kunz and D. Anderson (Australia, Canada, Great Britain) 3

Metaphysics of regulated deoxyribonucleotide biosynthesis (MTR 02324)

R.H. Haynes and B.A. Kunz (Canada) 5

DNA replication fidelity: kinetics and thermodynamics (MTR 02322)

M.F. Goodman (U.S.A.) 11

Enzymatic synthesis of site-specifically modified DNA (MTR 02323)

B.D. Preston and L.A. Loeb (U.S.A.) 21

Dynamics of the thymidine triphosphate pool during the cell cycle of synchronized 3T3 mouse fibroblasts (MTR 02313)

G. Spyrou and P. Reichard (Sweden) 37

Deoxyribonucleoside triphosphate pools in *Neurospora crassa*: effects of histidine and hydroxyurea (MTR 02301)

V.K. Srivastava, M.L. Pall and A.L. Schroeder (U.S.A.) 45

Chromosomal and enzymatic patterns provide evidence for two types of human colon cancers with abnormal nucleotide metabolism (MTR 02306)

C. Luccioni, M. Muleris, L. Sabatier and B. Dutrillaux (France) 55

High-performance liquid-chromatographic analysis of bases and nucleoside in mouse testes following in vivo thymidine administration (MTR 02303)

S.A. Clode and D. Anderson (Great Britain) 63

The role of blood platelets in nucleoside metabolism: regulation of megakaryocyte development and platelet production (MTR 02302)

T. Shaw (Australia) 67

The role of blood platelets in nucleoside metabolism: assay, cellular location and significance of thymidine phosphorylase in human blood (MTR 02308)

T. Shaw, R.H. Smillie and D.G. MacPhee (Australia) 99

The role of blood platelets in nucleoside metabolism: regulation of platelet thymidine phosphorylase (MTR 02307)

T. Shaw, R.H. Smillie, A.E. Miller and D.G. MacPhee (Australia) 117

Mutagenesis and deoxyribonucleotide pool imbalance (MTR 02319)

B.A. Kunz (Canada) 133

The role of deoxyribonucleotide metabolism in 5-bromo-2'-deoxyuridine mutagenesis in mammalian cells (MTR 02317)

E.R. Kaufman (U.S.A.) 149

Role of carcinogen-modified deoxynucleotide precursors in mutagenesis (MTR 02321)

E.T. Snow and S. Mitra (U.S.A.) 157

Deoxyribonucleotide pools as targets for mutagenesis by *N*-methyl-*N*-nitrosourea (MTR 02315)

A. Arecco, B.-j. Mun and C.K. Mathews (U.S.A.) 165

Mutational specificity of thymine deprivation-induced mutation in the <i>lacI</i> gene of <i>Escherichia coli</i> (MTR 02320) B.W. Glickman, F.L. Allen and M.J. Horsfall (Canada)	177
Genotoxicity of excess thymidylate in thymidylate low-requiring <i>Saccharomyces cerevisiae</i> is associated with changes in phosphate metabolism (MTR 02318) J. Holderried, H. Liedtke and M. Brendel (F.R.G.)	183
Consequences of the depletion of cellular deoxynucleoside triphosphate pools on the excision-repair process in cultured human fibroblasts (MTR 02316) R.D. Snyder (U.S.A.)	193
Modulation of DNA precursor pools, DNA synthesis, and ultraviolet sensitivity of a repair-deficient CHO cell line by deoxycytidine (MTR 02314) C.N. Newman, H. Hagler, K. Poston and J.H. Miller (U.S.A.)	201
The role of nucleotides in human fragile site expression (MTR 02310) G.R. Sutherland (Australia)	207
Role of deoxyuridine incorporation and DNA repair in the expression of human chromosomal fragile sites (MTR 02311) J.A. Reidy (U.S.A.)	215
A specialized form of chromosomal DNA degradation induced by thymidylate stress in mouse FM3A cells (MTR 02309) D. Ayusawa, H. Arai, Y. Wataya and T. Seno (Japan)	221
Sensitivity to cell killing and the induction of cytogenetic damage following gamma irradiation in wild-type and thymidine kinase-deficient Friend mouse erythroleukaemia cells (MTR 02305) P.G. McKenna, V.J. McKelvey and T.L. Frew (Northern Ireland)	231
Progressive formation of DNA lesions during treatment with anti-metabolites without incorporation of the drugs into DNA (MTR 02312) U. Lönn and S. Lönn (Sweden)	243
Germ and somatic cell abnormalities following in vivo administration of thymidine and adenine (MTR 02304) S.A. Clode and D. Anderson (Great Britain)	249
<i>Contents, Vol. 200 (1988)</i>	255
